## CareDx to Release Second Quarter 2015 Financial Results and Host Conference Call on August 10, 2015

BRISBANE, Calif., July 27, 2015 (GLOBE NEWSWIRE) -- CareDx, Inc. (Nasdaq:CDNA), a molecular diagnostics company focused on the discovery, development and commercialization of clinically differentiated, high-value, diagnostic surveillance solutions for transplant recipients, today announced that it will release financial results for the second quarter 2015 after the close of trading on Monday, August 10, 2015. The Company will host a corresponding conference call beginning at 1:30pm PT/4:30pm ET.

Individuals interested in listening to the conference call may do so by dialing (855) 420-0616 for domestic callers or +1 (678) 304-6848 for international callers. Please reference Conference ID 72840841. To listen to a live webcast, please visit the investor relations section of CareDx's website at: [www.caredx.com](http://www.caredx.com).

A replay of the call will be available beginning August 10, 2015 at 4:30pm PT/7:30pm ET through midnight on August 11, 2015. To access the replay, dial (855) 859-2056 or (404) 537-3406 and reference Conference ID: 72840841. The webcast will also be available on CareDx's website for one year following the completion of the call.

### About CareDx

CareDx, Inc., based in Brisbane, California, is a molecular diagnostics company focused on the discovery, development and commercialization of clinically differentiated, high-value, non-invasive diagnostic surveillance solutions for transplant recipients. The Company has commercialized AlloMap®, a gene expression test that aids clinicians in identifying heart transplant recipients with stable graft function who have a low probability of moderate/severe acute cellular rejection. CareDx is also pursuing the development of additional products for post-transplant monitoring of other solid organs that use a variety of technologies, including next generation sequencing to detect donor-derived cell-free DNA to monitor the health of organs after transplantation. The Company is currently investigating a research use only donor-derived cell-free DNA-based test for heart transplant recipients.
